

TINA'S TIRES

Our electric vehicles chargers (EV Chargers) are corporations, government agencies and consumers sustainability solutions.
Smart charging is the **new green way** to make **electric mobility** an easy choice.

OUR MISSION

TINA'S TIRES is committed to cost effective **green solutions** that significantly contributes to corporations, government agencies and consumers pledges to **reduce** their **carbon footprints**. The combination of **sustainability** goals, cost savings and government regulations makes it easy for fleets to **Electrify NOW!**

WHY ELECTRIC VEHICLE SMART CHARGERS ARE CRITICAL

Fleets are poised for **change**; and favorable government regulations, cost savings and **sustainability goals** clear the path for **mobility electrification**. And all fleets require **smart** charging networks to manage vehicles, costs, emissions and automated reports. Now is the time to learn how network charging has **revolutionized** operations and saved money for private and public fleets.

DIFFERENTIATORS

TINA'S TIRES is **NOT** just a Michelin and Camso **tire dealer**.

Our quality products, installations and customer support services address your needs at **every stage** of your **electric vehicle charging experience**.

We are our customers' **green solutions partner**, joining you in intelligent actions steps to reach **zero carbon footprints** in **50 states**. Our **integrated** portfolio of hardware, cloud services, smart apps and customer services ensures first times positive experiences.

WHO ARE TINA'S TIRES VALUED CUSTOMERS?

Corporations, government agencies and consumers are **our** valued customers. We offer quality products and services to address and support your needs at **every stage** of your **electric vehicle charging experience**.

ELECTRIFICATION COST CONTROLS & FINANCIAL INCENTIVES

Fleet vehicles are treated as **cost centers** demanding **tight controls** and reliable uptime performances. President Biden's Bipartisan Infrastructure Bill offers **financial incentives** to corporations, government agencies and consumers to encourage the purchase of **electric vehicles** and **chargers**.

Did you know that electric vehicles and chargers **reduces** maintenance, fueling and operational expenses? **TINA'S TIRES'** smart chargers intelligently utilizes the power you have available to **avoid** the costly demands of electrical and infrastructure **upgrades**.

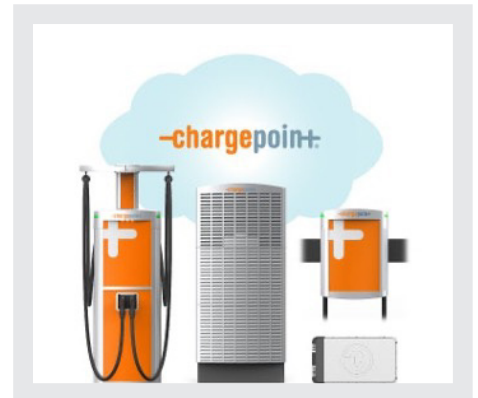

INSTALLATIONS & CUSTOMERS SUPPORT SERVICES

TINA'S TIRES' services start with **licensed electricians'** inspections to guarantee accurate site preparations and professional installations for **seamless** transitions.

Our smart chargers extends the **usefulness** of your electrical infrastructure, enabling you to connect **more chargers** to **existing** transformers, panels and circuits to avoid **demand charges** from your utility providers; which is why we recommend scheduled charging to **avoid** expensive peak energy rates.

As you know, power needs will **change** as your fleet grows, and we have the most comprehensive, configurable **power management** options to address evolving changes for the best **rate** of return on **mobility electrifications investments**.

Fast chargers are also designed for your customers and employees to **conveniently** charge their electric vehicles while working, shopping, dining, relaxing, running errands and playing.
