UNSPSC Code Class: 25191800 Vehicle Testing and Measuring Equipment Distributor

UNSPSC Commodity Code: 25175002 Electrical Vehicle Charging Station Distributor

SIN Commodity Code: 3361E Electric and Autonomous Vehicles and Accessories Distributor

NIGP Commodity Code: 06009 Batteries and Electric Vehicles Charging Equipment and Installation Distributor

### OUR PARTNERS

### OUR MISSION

**TINA'S TIRES'** mission is to provide safe, reliable, timely and quality services for its customers; whose trust we earn with each tire installation. We sell to government and corporate fleets; and install on-site using contact free mobile tires trucks.

Our technicians are trained by the standards of the Tire Industry Association (TIA); whose mission is to promote tire safety through training and education. The Basic Automotive Tire Service (ATS) is a 200-level minimum skills training and certificate program.

**TINA'S TIRES'** mobile trucks are fully stocked with all equipment required to remove, mount, balance, rotate and install new passenger cars, SUVs, vans, pickup trucks, light trucks, medium trucks, heavy duty trucks, heavy duty tractors, heavy duty trailers, material handling forklifts, aviation and agricultural tires.

## DIFFERENTIATORS

- **TINA'S TIRES** is not just a tire dealer. We are our customers' green solutions partner for the recycling of tires, oil filters and used oils.
- **TINA'S TIRES'** President, CEO and Founder, Tina M. White, firmly believe there is an intentional solution for every problem. And she was inspired to problem solve for her large government and corporate fleets by offering **recycling services**.
- Tires make up a huge portion of a fleet's waste stream. Traditional methods of tire disposal are extremely carbon-heavy. The "average" ton of waste tires diverted from landfill equals 2.5 metric tons of CO2 emissions reductions.
- **TINA'S TIRES** offers green solutions for large corporate and government fleets, committed to reducing their waste tires' carbon footprints. Our green solutions also play an important role in eliminating mosquitoes; spreading diseases born from water settling in waste tires at landfills at the annual rate of 300 million.
- The recycling of waste tires is a green solution that strategically empowers **TINA'S TIRES'** customers and the **Department of Environment Protection (DEP)** to achieve their sustainability goals; for the reduction of waste tires in landfills and the emission of CO2 gases.
- **TINA'S TIRES** pledge to recycle waste tires, used oil filters and used oils.
- **TINA'S TIRES** is an USA authorized distributor of The **WheelRight Tire Management System UK:** ([www.wheelright.co.uk](http://www.wheelright.co.uk))
- **WheelRight** technology is designed for **fleet vehicles** to drive over **ground-installed sensors**, which instantly record key data such as **tire air pressure, tread depth, tire temperature, sidewall damage and vehicle weight**.
- **WheelRight's** technology **detects and flags potential tire maintenance problems**; without drivers exiting vehicles and leaving fleet facilities.
- **WheelRight** Tire Management System is a **preventative tool** that keeps large corporate and government fleets from experiencing highway tire blowouts, accidents and fatalities.
- **WheelRight's** six seconds drives over scanning results are sent **via email** immediately to **fleet managers** for their reviews.
- **TINA'S TIRES** is the only commercial, industrial, aviation and agricultural tire dealer certified Minority Woman Business Enterprise (MWBE), Department of Transportation Disadvantaged Business Enterprise (DBE) and Department of Transportation Airport Concessions Disadvantaged Business Enterprise (ACDBE) in the United States.

## SALES AND DELIVERY SERVICES

**TINA'S TIRES** sell and deliver new tires, bulk oils, oil filters, gear oils, heavy duty engine oils with 600,000 miles on road warranties, exhaust fluids, fuel additives, greases and lubricants; as well as Aviation hydraulic fluids, lubricants and greases that complies with FAA regulations.

## MOBILE TIRE TRUCKS EQUIPMENT

1. Generator.
2. Tire mounting equipment.
3. Tire changing equipment.
4. Remote inflation system with a pressure limiting regulator.
5. Safety blocks.
6. Tire bead seating tool for heavy duty trucks.
7. Calibrated torque wrench for heavy duty trucks.
8. Lifting jacks for passenger cars, SUVs, vans, pickup trucks, light, medium and heavy duty trucks.
9. Emergency lights.
10. Safety traffic signs.
11. Hydraulic forklift tire press on trailer used to install press on solids, solid pneumatics and pneumatic air filled tires.
12. Hydraulic forklift jack.
13. Impact gun (forklift wrench).

## TESTIMONIALS

### POINT TO POINT FREIGHT

Our tire installation services with **TINA'S TIRES** have been timely and efficient, which is important when you have freight trucks that have appointed arrivals times in multiple states.

### RICHARD'S DISPOSALS

In the solid waste and recoverable materials industry the only days our trucks don't roll are Thanksgiving and Christmas. Servicing our residential and commercial customers is not optional. **TINA'S TIRES** has proven to be a valuable partner in keeping our truck routes on schedule.

### KUSHAE

**TINA'S TIRES'** prompt forklift tires installations keep our material handling processing moving smoothly. We are an all natural feminine hygiene company, and it is important that **TINA'S TIRES** is our green solution that helps us reduce our carbon footprints; and waste tires in landfills by recycling all of our tires.

### MCO CONSTRUCTION

**TINA'S TIRES** has never failed to meet their guarantee service times for roadside services. Their promise is not just words on a slogan.

### BROWN ELECTRICAL SERVICES

Our down time has been tremendously decreased due to **TINA'S TIRES'** mobile trucks, changing our fleet's tires after hours at our headquarters. We no longer lose employees' valuable operational time stuck at traditional retail tire stores.

### AA SECURITY

We used to have to pay employees at the rate of \$15 per hour to cross their legs and drink coffee, waiting a minimum of three (3) hours to get tires installed at big box tire stores. **TINA'S TIRES'** convenient services means our fleet's tires are installed while the cars are idled at our contract clients' sites; and their services are cost effective and time saving.

**Service Areas: Alabama, Florida, Georgia, Illinois, Louisiana, Memphis, New Jersey, New York, North Carolina, Ohio, South Carolina, Tennessee and Texas.**
